

Sinclair Broadcasting has the responsibility to use the public air waves in ways that truly serve the people in their community. If they air "Stolen Honor: Wounds That Never Heal", they will illegally misappropriate the public air space to broadcast a smear piece. At the very least, Sinclair should be required to present, with equal time and fervor, a piece which shows John Kerry in a positive light. Sinclair Broadcasting has no right to air propaganda, political smear, or in any other way misuse the public resources with which they have been licensed and trusted.
